

PRESS RELEASE

State Representative Candidate James F. Munafa, Jr. Plans to Support the Will of the Voters

James F. Munafa, Jr., candidate for State Representative for the 2nd Barnstable District, says if Ballot Question 3 passes he will work diligently to insure that the will of the people to roll back the sales tax to 3% is not thwarted. Munafa says, "If this question passes, we may watch history repeat itself. In 2002 the Legislature amended the 2000 voter approved law that would have reduced the state's income tax to 5%. Voters need a true advocate who will back them up on Beacon Hill, and I am the man for the job."

However, if Question 3 should not pass, Munafa believes that the removal of the sales tax increase is still in order. "Recently the Legislature has imposed a number of new taxes and tax increases. We need to be working towards removing these new burdens. Restoring the sales tax to 5% would be a good step toward restoring the voice of the people to Beacon Hill."

Based on his strong support for tax limitation, James F. Munafa, Jr. has earned the endorsement of Citizen's for Limited Taxation's 2 ½ Political Action Committee in his election bid for State Representative from the 2nd Barnstable District.
